

The Cosmic Twins

Deep in the folds of the Invisible Realm
Two ancient souls did choose
To aid a planet in peril
This Earth of Ours

Descending to nearly the same place
At nearly the same time
They were born to this world
In the second half of the 20th Century

After many years of singular struggles and challenges
They met for the first time (once again)
Soon recognized each other
And the Great Work they were to do together

Two Spirits most bright
Sending out infinite waves of Light
For Love of the Creator, Humanity and Planet Earth
The Cosmic Twins have come...
