Our Global Vision

The passage to a new Millennium presents an historic opportunity to view the past, address the challenges and possibilities of the present and shape a positive future together. We envision a campaign uniting people from all cultures and nations in the spirit of hope and goodwill as humanity begins a Great New Millennium!

THE GREAT MILLENNIUM CAMPAIGN is a cross-cultural adventure connecting the world in celebration of the Year 2000 and the New Millennium! The objective is to focus 'Millennium Momentum' toward its peak positive potential!

This Global Campaign begins with three '**Great Millennium Legacy**' initiatives:

1. **Great Millennium Singalongs** build up to the '**Great Millennium Global Singalong**' which will circle the globe in each of the world's 24 time zones as the '1st Second, January 1, 2001' arrives. It's the 'Magic Moment' - the first second of the new Millennium!
2. **Global Learning Network** - the Internet and the network computer have enabled humanity's collective knowledge to be available to all for the first time in history. The **Global Learning Network** promotes the development of partnerships for the worldwide distribution of 'Net' computers to schools, libraries and community centers requiring access.
3. **Global College** is a 'Global Education' initiative conceived in the 1960's. It will help to shape a better future for all through 'Global English' and the continuing transfer of accumulated human knowledge and wisdom via the Internet and the **Global Learning Network**.

THE GREAT MILLENNIUM CAMPAIGN is an enduring testament to the people of the world, the human spirit and our common future. It's a 'Monumental Millennium Gift' to the World!

Everyone, Everywhere can Participate in this Great Adventure!

The Great Millennium Campaign is an initiative of the Global Foundation For Understanding - a Canadian non-profit organization.
